Subject: RE: HELP

1) If you want Tagworld; I will ratchet up my personal involvement and will guarantee you we can get it and get it fast. You and I should talk about how to allocate my time...to be honest I have been trying to be in NY as much as possible to deal with the corp transition and to be in a position to work out our (yours and mine) stuff. If you want to drop ship me to LA, I can go wrestle it in and cut through the nick-related strategic cooperation stuff.

2) lets talk live about the YT thing.

3) talk live about this morning's meeting.

Is there a time we can talk re: #2 & #3?

Subject: HELP

1). I met with Van, Courtney, Rich on a couple of MTV digital ideas.

To cut to the chase, they really want Tagworld. Courtney knows the guys, as you do....and I don't want to extend the deadline. We need this, 40% is fine with me, gotta get to the execution stage. You are the only one who can and does get stuff done.

The trip to Russia this week..is the deal contingent on that diligence? WE NEED THIS asset. I will solve the stand-alone piece, this is better for us than Wallop (Tagworld can do flash thing), and it will mean actual forward motion on social networking, tagging, etc. for our branded sites....which are lagging in traffic and engagement.

2). Google and YouTube. That's the rumor, and I think it's real. Kind of blows a hole in our wiki. Either way, wouldn't shouldn't Viacom/MTVN get into this deal?
Throw in our ENTIRE library. Maybe Paramount, definitely BET. What do you think? I have a call into Dooley and Dauman.

Sorry about today. We will meet Wednesday. There are some big issues I have to knock over first.

Thanks.
We also need a minute on that meeting this morning.
